

# Our key client products for the Specialty Chemicals Industry

## **ADDAPT Chemicals BV, Netherlands**

- Environment friendly additive range for water base and waterborne coating

[www.addapt-chem.com](http://www.addapt-chem.com)

## **Angstrom Technologies, Inc., Kentucky**

- Invisible fluorescent pigments and dyes
- Daylight fluorescent pigments and dyes
- Phosphorescent pigments and dyes

[www.angtech.com](http://www.angtech.com)

## **ESIM, Austria**

Quality Intermediates and Fine Chemicals

- Dimethyl Acetyl Succinate (DMAS): Intermediate used in food color application
- Dimethyl Succinyl Succinate (DMSS): Intermediate used in pigment application
- Adipic acid Dihydrazide (ADH) & Diacetone Acrylamide (DAA): Cross linker in waterborne acrylic emulsion
- Fumaric Acid
- Dimethyl Sebacate
- Diisopropyl Succinate
- Diethyl Acetyl Succinate

[www.esim-chemicals.com](http://www.esim-chemicals.com)

## **Galstaff Multiresine S.p.A, Italy**

- Synteven: Unsaturated polyester resins for car putties, wood coatings, and marble putties
- Ftalon: Saturated polyester resins for automotive O.E.M. and wood coatings
- Pigmented paste: Styrene free unsaturated polyester resin for pigmented paste
- Uranol: Aliphatic and Aromatic Isocyanate

[www.galstaffmultiresine.it](http://www.galstaffmultiresine.it)

## **Huntsman International**

- Methylene diphenyl isocyanate(MDI)
- Polyol
- System for memory foam
- System for HR foam

<https://www.huntsman.com/>

## **LCY GRIT CORP, Taiwan**

- Styrene block co-polymer Globalprene (SEBS, SBS, SIS) for Adhesive application

<http://www.lcygroup.com/lcy/en/>

## **Lubrizol Advanced Materials India Pvt. Ltd., USA**

- Pearlstick for Solvent-Based Adhesives, Ink Binders and Lacquers.
- Pearlbond TPU for Reactive Hot Melt HMPUR
- Pearlstick TPU for Inks Binders and Lacquers

[www.lubrizol.com](http://www.lubrizol.com)

## **LUNA range of products**

- Lunaflex MP-45
- Luna-nol C-12, coalescing agent for aqueous coatings
- Luna range of Carboxy Methyl Cellulose (CMC)
- Luna range of Methyl Hydroxy Ethyl Cellulose (MHEC)
- Luna-pas, Redispersible Powder (RDP)
- Luna anti foam:
- Lunapal A81: Poly-aldehyde resin for pigment paste and industrial coatings
- Polyether amine

## **Polygel Organometallic (Brunei) Sdn Bhd., Brunei**

- PUREstab: Phenolic (Primary) antioxidant for adhesives and coatings

[www.polygelindia.com/](http://www.polygelindia.com/)

[www.polygelglobal.com](http://www.polygelglobal.com)

## **RheinChemie Additives/**

### **LANXESS, Germany**

- Mesamoll®: Phthalate-free plasticizers
- Mersolat®: Emulsifiers for polymerization and textile pretreatment chemicals
- Macrolex®: Solvent dyes for coloring plastics
- Bayplast®/Bayfast®: Pigments (P.Y.150) for plastics and coatings
- Baypure®: Biodegradable dispersing and complexing agents
- Levanyl® and Levanox®: Pigment dispersions
- Bayscript®: Dyes for industrial inkjet application

[www.lanxess.com](http://www.lanxess.com)

## **Shandong Gaomi Silver Hawk Chemical Fiber, China**

- Hydroxy Ethyl Cellulose (HEC), range of cellulosic thickeners for water based paints with improved bio stability

[www.yyhx.com/index\\_en.html](http://www.yyhx.com/index_en.html)

## **SIAM EXTEK, Thailand**

- Polyethylene waxes for polymer master-batches/powder coatings and adhesives

[www.secchem.com](http://www.secchem.com)

## **SOLVAY, USA**

ECTFE Fluoropolymer for powder coating

- Antistatic properties
- Food contact compliance
- Very good chemical resistance
- Very good thermal properties
- Optimum permeation resistance
- Outstanding flame resistance

[www.solvay.com](http://www.solvay.com)

#### **TOAGOSEI Co. Ltd., Japan**

- Octane Resin chemistry for UV curable Inks and 3D Printing

[www.toagosei.co.jp](http://www.toagosei.co.jp)

#### **TOYOBO, Japan**

- Hardlen: Adhesion promoters for PP substrates
- Vylon: Co-polyester for coatings and inks

[www.toyobo.co.jp](http://www.toyobo.co.jp)

#### **Venator, USA**

- Titanium Dioxide Pigments (both Sulphate and Chloride processed)
- Additives: Blanc Fixe, LITHOPONE and Zinc Sulfide
- Altiris infrared reflecting pigments

[www.venatorcorp.com](http://www.venatorcorp.com)

#### **Vertellus, USA**

- Low-viscosity epoxy hardener yielding long pot life, semi-flexible resins, well suited for electronics
- Corrosion inhibitor for non-aqueous systems such as lubricants, hydraulic fluids, greases and fuels
- Detergent additive for metal cleaning
- Co-monomer and internal plasticizer in polyester resins

[www.vertellus.com](http://www.vertellus.com)

#### **Zeochem, Switzerland**

- Zeoflair Highly Active Zeolite Adsorbent for the removal of: Undesirable odors and VOC (Volatile Organic Compounds) statically and actively in adhesives/ coatings, fibres, films, lacquers/ paints, recycling, non-woven and thermoplastics (Mainly automotive and packaging)

[www.zeochem.com](http://www.zeochem.com)

#### **Other products: PU Foam Industry**

- Urethane Additives
  - Silicone
  - Tin Catalyst
  - Amine
- Toluene Diisocyanate (TDI)
- Polymer Polyol
- Water based adhesive
- Colors
- Flame retardants
- Paper
- Anti microbials
